

## Test Plan

Validate Address page layout and strings for each country
Validate "Add New Address" page layout and strings for each country
Validate addresses are editable
Validate the maximum number of addresses per page is 20
Validate addresses can be deleted
Validate button "My Orders" redirects to My Order page
Validate "Add New Address" form is displayed when "Add New Address" button is clicked
Validate "Select Pick up Location" autocompletes the address that is entered with street by displaying dropdown
Validate "location" icon displays current location with street
Validate "Skip Validation" button work for exceptional cases
Validate "Save and Update" address button works as expected. New/Updated address should be displayed in "My Address"
Validate Addresses without street should not be saved or updated
